SDS · SAFETY DATA SHEET (GHS / REACH)

Pigment Turquoise craft for bombs, 1 kg

Article: TM20073105 · **INCI:** Maize Starch & FD&C Aluminum
Document No. SDS-262734-EN-2611 · **Revision:** 11.2026

Product page

1 Identification of the substance/mixture and of the company

Trade name	Pigment Turquoise craft for bombs, 1 kg
Article	TM20073105
INCI	Maize Starch & FD&C Aluminum
Recommended use	They can be used in bath bombs, while being easily washed off, practically without staining the surfaces and skin during the bath. Can also be used to make play dough, slimes, colored chalk, finger paints.
Uses advised against	None identified.
Supplier	**Mylo-Opt** 1st Pishchanyi Lane, 1, Kremenchuk, Poltava region, Ukraine +38 (063) 690-06-72 · mysoapoptom@gmail.com мыло-опт.com.ua
Emergency telephone	+38 (063) 690-06-72 (Mon–Fri, 8:00–17:00)

2 Hazards identification

Classification (CLP/GHS)	Not classified as hazardous.
Label elements	No pictograms, signal word or H-statements required.
Other hazards	Dust may irritate eyes and respiratory tract; stains skin and surfaces. Airborne dust at high concentration may present a dust explosion risk.

3 Composition / information on ingredients

Mixture. Components are not classified as hazardous at the stated concentrations unless otherwise stated in section 2.

Component	CAS	EC	Content, %
Zea Mays Starch	9005-25-8	232-679-6	50–90
Aluminum Lake (FD&C)	—	—	10–50

4 First aid measures

Inhalation	Move to fresh air. Seek medical advice if breathing difficulties occur.
Skin	Wash off with water and a mild cleanser.
Eyes	Do not rub. Rinse with plenty of water for 10–15 min. Seek medical advice if irritation persists.
Ingestion	Rinse mouth with water. Do not induce vomiting. Seek medical advice if unwell.
Most important symptoms	Mechanical eye irritation, coughing on dust inhalation.

5 Firefighting measures

Flammability	Organic dust may be combustible at high airborne concentration.
Extinguishing media	Water spray, foam, dry powder, CO_2 – appropriate to surrounding fire.
Hazardous combustion products	On combustion – carbon oxides (CO, CO_2), possibly nitrogen and sulfur oxides.
Firefighter equipment	Self-contained breathing apparatus and protective clothing.

6 Accidental release measures

Personal precautions	Avoid dust formation and inhalation. Use protective equipment (section 8).
Environmental precautions	Do not allow to enter drains or water bodies.
Clean-up methods	Collect mechanically (vacuum with filter or damp wiping) and place in a closed container for disposal.

7 Handling and storage

Safe handling	Avoid dust formation. Ensure ventilation. Do not eat or drink while working. Wash hands after handling.
Storage conditions	in a dry place, in a tightly closed container, protected from direct sunlight, at +5...+30 °C
Incompatible materials	Strong oxidizers.

8 Exposure controls / personal protection

Occupational exposure limits	Nuisance dust: 10 mg/m³ (inhalable), 3 mg/m³ (respirable).
Engineering controls	General and local exhaust ventilation.

Respiratory protection	FFP2 dust mask where dust is generated.
Eye protection	Safety glasses with side shields.
Hand protection	Nitrile gloves.

9 Physical and chemical properties

Physical state / appearance	powder
Color	turquoise
Odor	odorless
Particle size	1-10 µm
pH	6–9 (1 % solution)
Melting point	> 250 °C (decomposition)
Density	1.4–1.8 g/cm³
Bulk density	0.4–0.8 g/cm³
Solubility	insoluble, dispersible
Flash point	not applicable / > 100 °C
Explosive properties	none

10 Stability and reactivity

Chemical stability	Stable under recommended storage conditions.
Conditions to avoid	Moisture, direct sunlight, heating.
Hazardous decomposition	On combustion – carbon oxides (CO, CO_2), possibly nitrogen and sulfur oxides.

11 Toxicological information

Contained food dyes have low acute toxicity: LD50 oral (rat) > 2000 mg/kg. Not irritating to skin. May temporarily stain skin. Some azo dyes may cause intolerance reactions in sensitive individuals.

12 Ecological information

Water-soluble dyes, readily color water. Not readily biodegradable but do not bioaccumulate. Low acute aquatic toxicity (EC50 > 100 mg/L). Not PBT/vPvB.

13 Disposal considerations

Product	Dispose of in accordance with local regulations; do not discharge large quantities into drains.
Packaging	Dispose of or recycle empty packaging.

14 Transport information

UN number	Not applicable
ADR / RID / IMDG / IATA	Not regulated as dangerous goods.
Special precautions	None required.

15 Regulatory information

Regulation (EC) No 1907/2006 (REACH), Regulation (EC) No 1272/2008 (CLP). Colorants contained are listed in Annex IV of Regulation (EC) No 1223/2009 (cosmetic colorants).

16 Other information

Revision date	11.2026
Version	1.0
Document No.	SDS-262734-EN-2611
